### Education and Training

PhD Degree

Environmental Sciences

University

University of Urbino, Italy

Date

February 10, 2005

Tutor

Dr. Francesco Tampieri, ISAC-CNR Bologna, Italy

Thesis Title

Stochastic Models for Turbulent Dispersion of Pollutants in Geophysical Fluids

### Pagnini, Gianni

Italian

February 5, 1975

via Sara Levi Nathan 20, 61121 Pesaro (PU), Italy

Laurea (Master Degree)	Physics, 107/110
University	University of Bologna, Italy
Date	October 27, 2000
Tutor	Prof. Francesco Mainardi, University of Bologna, Italy
Co-Tutor	Prof. Rudolf Gorenflo, Free University of Berlin, Germany
Thesis Title	Generalized Equations for Anomalous Diffusion and Their Fundamental Solutions
High School Diploma	Scientific Liceum, 50/60
High School	Statal Scientific Liceum "G. Marconi", Pesaro, Italy
Date	July 1994
Summer Schools	<p>'Research school on THE ROLE OF ATMOSPHERIC BOUNDARY LAYER PROCESSES IN ATMOSPHERIC CHEMISTRY', Casteldefels, Spain, 20–24 November, 2006</p> <p>'15th SUMMER SCHOOL ON PARALLEL COMPUTING', CINECA, Casalecchio di Reno (Bologna), Italy, 3–14 July, 2006</p> <p>'INTERNATIONAL SUMMERSCHOOL ON OCEAN TURBULENCE', UPC-ERCOFTAC, Vilanova i la Geltrú, Barcelona, Spain, 11–16 July, 2005</p> <p>'TRANSPORT, REACTION AND PROPAGATION IN FLUIDS' and the following conference 'KOLMOGOROV'S LEGACY IN PHYSICS: ONE CENTURY OF CHAOS, TURBULENCE AND COMPLEXITY', ICTP-INFN, Miramare (Trieste), Italy, 8–17 September, 2003</p> <p>'International summer school on ATMOSPHERIC AND OCEANIC SCIENCES (ISSAOS), CHAOS IN GEOPHYSICAL FLOWS', L'Aquila, Italy, 10–14 September, 2001</p> <p>'THE PHILOSOPHY OF QUANTUM MECHANICS', Italian Society of Logics and Philosophy of Sciences (SILFS), Cesena, Italy, 14–18 September, 1998</p>

## **Scientific Research Experience**

01/01/2013 – today	IKERBASQUE Research Fellow, BCAM - Basque Center for Applied Mathematics Research Line: Mathematical and Numerical Modeling of Environmental Flows
31/05/2010 – 30/05/2012	PI of the research project: "Effects of Turbulence on the Propagation Velocity of the Combustion Front". Grant funded by Autonomous Regional Authority of Sardinia and hosted by CRS4 (Center for Advanced Studies, Research and Development in Sardinia), Pula (CA), Italy.
20/10/2008 – 30/05/2010	Scientific consultant at CRS4 (Center for Advanced Studies, Research and Development in Sardinia), Pula (CA), Italy, "Energy and Environment Program", Director E. Bonomi, area "Process Engineering and Combustion", Head V. Zimont
17/10/2005 – 17/10/2008	Fellowship at ENEA, Bologna, Italy, "Atmospheric Modelling Group", Head G. Zanini
01/04/2004 – 31/07/2004	Fellowship at ISAC-CNR, Bologna, Italy, research program: "Parameterization of Turbulent Mixing Processes at Interface", Tutor F. Tampieri
19/09/2003 – 26/11/2003	Professional collaboration at ISAC-CNR, Bologna, Italy, research program: "Development of an Algorithm for the Simulation of Particle Density Distribution in Turbulent Flows"
15/07/2002 – 14/07/2003	Fellowship at ISAC-CNR, Bologna, Italy, research program: "Stochastic Models for Absolute and Relative Dispersion in Turbulent Flows", Tutor Dr. F. Tampieri
15/07/2001 – 14/07/2002	Fellowship at ISAO-CNR, Bologna, Italy, research program: "Stochastic Models for Relative Dispersion and the Dispersion of Impurities", Tutor Dr. F. Tampieri

## **Teaching Experience**

Academic - undergraduate

15 and 20 December 2011

Lectures at the Course in Physics, University of Bologna,  
“Mellin transform and its application in Mathematical Physics”.

Academic - postgraduate

12–16 June 2012

Lecturer at the International Workshop and Summer Course  
ENVIRONMENTAL TURBULENCE. Vilanova i la Geltrú and  
Barcelona, Spain.

26–28 September 2011

Lectures at the Doctorate course in Environmental Engineering,  
University of Cagliari, “The Mellin Transform. A unique  
and useful tool for multiple research activities”.

High School

School Year 2004-2005

High School Teacher of *Mathematics and Physics* at the Statal  
Scientific Liceum “G. Marconi”, Pesaro, Italy

10/03/2001 – 12/06/2001

High School Teacher of *Mathematics and Physics* at the Statal  
Scientific Liceum “G. Torelli”, Fano (PU), Italy

## **Popularization**

Seminars

Modelling development on wildfire propagation. Seminar cicle  
for valorization of CRS4 scientific research, Cagliari, Italy, 22  
March 2012

Turbulence: the last unsolved problem of classical mechanics.  
Seminar cicle for valorization of CRS4 scientific research,  
Cagliari, Italy, 30 November 2011

An everyday experience at the borders of science. Cagliari  
Festivalscienza IV Edition, Cagliari, Italy, 8 November 2011

Scientific Collaborations

Member of the International Program Committee of the International Conference on “Fractional Differentiation and Its Applications” (FDA2014). Catania, Italy, June 23–25, 2014.

Co-Chair at “Professor Rudolf Gorenflo’s Special Session 1” during FDA’10. The 4th IFAC Workshop Fractional Differentiation and its Applications. Badajoz, Spain, October 18–20, 2010. (Chair: Francesco Mainardi).

Scientific collaboration with Dr. F. Tampieri and Dr. A. Maurizi, ISAC-CNR, Bologna, Italy, on Stochastic Modelling of Turbulent Relative Dispersion

Scientific collaboration with Prof. F. Mainardi, Department of Physics, University of Bologna, Italy, on Fractional Calculus, Special Functions, Fractional Stochastic Processes

Member since 2001 of the research group leaded by Prof. F. Mainardi, Department of Physics, University of Bologna, Italy, Project RFO (EX 60%)

<b>Memberships</b>	<p>Member since 2001 of National Group for Mathematical Physics (GNFM-INdAM), section: "Diffusion and Transport Problems"</p> <p>Member since 2010 of Italian Society of Applied and Industrial Mathematics (SIMAI)</p> <p>Member since 2012 of the Group SIMAI-DMA (Popularization of Applied Mathematics)  <a href="http://maddmaths.simai.eu/">http://maddmaths.simai.eu/</a></p> <p>Member since 2010 of Italian Society of Physics (SIF)</p>
<b>Awards</b>	<p>GNFM-INdAM Young Researcher Award 2010</p> <p>GNFM-INdAM Young Researcher Award 2007</p> <p>VIII Programme Marco Polo, University of Bologna, Italy</p>
<b>Others Educational Experiences</b>	<p>Resarch program: "Evolution Equations for the Radius of a Spherical Flame", prize 1000 euro.</p> <p>Resarch program: "Study on the Relationships between La- grangian and Eulerian Properties of Turbulent Flows", prize 1000 euro.</p> <p>Research program: "Relative Dispersion in Turbulent Flows", prize 3450 euro. From 01/11/ to 31/01/2006 research period at INLN-CNRS, Nice, France.</p> <p>Introductory seminar to the software Wolfram <i>Mathematica</i>® version 8, <i>Mathematica: uno strumento per la ricerca e la didattica</i>, CRS4, Pula (CA), 21 gennaio 2011</p> <p>Conference <i>Dal globale al locale: piani d'azione per il clima</i>, ARPA-ER, University of Ferrara, Ferrara, Italy, 10–11 May, 2007</p> <p>Scientific visit at INLN-CNRS, Nice, France, hosted by Dr. A. Celani, from April 14 2004 to June 14 2004, working on data analysis of Direct Numerical Simulations of Navier-Stokes equations</p>

## Publications

### Research Papers

2013

Pagnini G., Mura A., Mainardi F., Two-particle anomalous diffusion: Probability density functions and self-similar stochastic processes. *Phil. Trans. R. Soc. A*, accepted for publication.

Presentations

Pagnini G., Evolution equations for flame ball radius. FDA'10  
4th IFAC Workshop on Fractional Differentiation and Its Applications. University of Extremadura, Badajoz, Spain, October 18–20, 2010.

Pagnini G., E. Bonomi, A Lagrangian formulation of turbulent premixed combustion. XCVI Congresso Nazionale Società Italiana di Fisica, Bologna, Italy, September 20–24, 2010.

Pagnini G., F. Mainardi, Evolution equations for flame ball radius. SIMAI Biannual Congress, Univerisity of Cagliari, Cagliari, Italy, June 21–25, 2010.

Pagnini G., Particle pair rotation to constrain the non-uniqueness problem in Lagrangian stochastic modelling of turbulent relative dispersion. EGU General Assembly 2008, Vienna, Austria, April 13–18, 2008 (Solicited Oral Presentation)

Pagnini G., Kernel Method in Lagrangian photochemical air quality modelling, “Energy and Environment: new challenges to mathematical modelling and applications” FIMA Second International Conference, Champoluc, Italy, January 21–24, 2008

Pagnini G., Mainardi F., The parametric evolution equation of the generalized Voigt profile function, “Special Functions, Information Theory and Mathematical Physics”, Granada, Spain, September 17–19, 2007

Pagnini G., Vitali L., Monforti F., Zampieri M., Zanini G., The Effects of shear and convective turbulent dispersion on chemically reactive puffs, “Research school on The role of atmospheric boundary layer processes in atmospheric chemistry”, Castelldefels, Spain, November 20–24, 2006

## Workshop and Seminars

Pagnini G., Non-Markovian stochastic modelling for turbulent relative dispersion. International Symposium *Wellen, Diffusion und Turbulenz* (Waves, Diffusion and Turbulence). Berliner Mathematische Gesellschaft (Berlin Mathematical Society), Berlin, Germany, September 26–28 2012.

Pagnini G., A Lagrangian approach for reacting front propagation in turbulent flows. BCAM - Basque Center for Applied Mathamtics, Bilbao, Spain, July 19 2012.

Pagnini G., Governing equations for the growing of the radius of a flame ball in normal and anomalous diffusive media. International Workshop *Methods and Problems in Mathematical Physics*. Dipartimento di Statistica e Probabilità, University of Rome La Sapienza, May 20–21 2011.

Pagnini G., Non-Markovian stochastic modelling for nonlinear systems: Dispersion and stretching in turbulent flows. Department of Physics, University of Bologna, May 19 2011.

Pagnini G., Non-Markovian stochastic modelling of material line stretching and relative dispersion in turbulent flow. Workshop SIMAI Giovani *Prospettive di Sviluppo della Matematica Applicata in Italia 2011*, Rome, CNR, April 8, 2011.

Pagnini G., Mellin transform and its applications in mathematical physics. Seminars cycle at Department of Physics, University of Cagliari, December 21–23, 2010.

Pagnini G., Microscopic formulation of turbulent propagation of a chemically reactive front. Department of Physics, University of Cagliari, May 25, 2010.

Pagnini G., Fractional differential equations in combustion science: A new challenge for fractional analysts. Int. Workshop *Methods and Problems in Mathematical Physics*, Bologna, 26–27 March, 2010.

Pagnini G., Evolution equations of fractional orders in physics. Department of Physics, University of Bologna, March 26, 2010.

Pagnini G., Lagrangian stochastic models for the analysis of concentration fluctuations in turbulent flows. Workshop SIMAI Giovani *Prospettive di Sviluppo della Matematica Applicata e Industriale in Italia 2009*, Rome, October 9, 2009.

Pagnini G., Lagrangian stochastic models for turbulent relative dispersion. ISAC-CNR, Bologna, June 18, 2009

Pagnini G., The generalized Voigt profile function in spectroscopy: a fractional calculus approach. Department of Physics, University of Bologna, March 5, 2009

Pagnini G., Relations between Eulerian and Lagrangian density function in turbulent flows. GNFM Scientific Assembly, Montecatini Terme (PT), Italy, October 11–13, 2007

Pagnini G., Special functions via Mellin–Barnes integrals, Interdisciplinary workshop “From waves to diffusion and beyond”, Bologna, Italy, December 20, 2002

## Posters and Abstracts

- Pagnini G., Massidda L., Random level-set method to model fire-induced turbulent flow in wildland fire propagation. Poster at International Conference on Fire Behaviour and Risk Modelling, Alghero (SS), Italy, October 4–6 2011
- Zimont V.L., Pagnini G., Two Lagrangian properties of turbulent diffusion with a key role in premixed combustion modelling. Poster at Seventh Mediterranean Combustion Symposium, Chia (CA), Italy, September 11–15 2011
- Zimont V.L., Pagnini G., Lagrangian properties of diffusion in the theory of turbulent combustion. Poster at 6th International Symposium on Turbulence, Heat and Mass Transfer, Rome, September 14–18 2009
- Pagnini G., Particle pair rotation to constrain the non-uniqueness problem in Lagrangian stochastic modelling of turbulent relative dispersion. *Geophys. Res. Abstracts* **10**, EGU2008-A-08518 (2008). EGU General Assembly 2008, Vienna, Austria
- Pagnini G., Zampieri M., Bi-Gaussian model for the forth order moments in the convective boundary layer. Poster at VI Meeting EMS, Lubiana (Slovenia), September 4–8 2006. <http://meetings.copernicus.org/ems2006>
- Maurizi A., Pagnini G., Tampieri F., Fokker–Planck properties for turbulent relative dispersion modelling. *Geophys. Res. Abstracts* **6**, 03440 (2004). EGU General Assembly 2004, Nice, France
- Mainardi F., Pagnini G., Vivoli A., Risultati recenti per l'equazione della diffusione frazionaria. XVII Congresso U.M.I., Milan, Italy, September 8–13 2003, p. 200. [www.umi2003.matapp.unimib.it/b/b.htm](http://www.umi2003.matapp.unimib.it/b/b.htm)
